

La linea Ark é una linea creata appositamente sia per il business che per il tempo libero. È caratterizzata da linee morbide e diverse nuances, realizzate tono su tono. Il punto di forza di questa linea é l'utilizzo di diversi materiali: la cordura (nelle zone dove é richiesto un maggior carico e un maggior sforzo), il naylon, gli inserti in gomma ed i dettagli in pelle. Infine, questa linea é stata pensata appositamente per il business e perciò dotata di una tasca porta-pc imbottita ed estraibile, oltre ad una divisione interna ed esterna dello spazio in diverse tasche.

*Linea Ark is specially created both for business and for free time. Its characteristics are soft lines and various nuances, tone on tone. The most important point of this line is the use of different materials: cordura (for the parts that must resist a big weight), nylon, rubber inserts, and leather details. Being conceived for business, the line is equipped with a removable PC holder besides an inside and outside pocket organization.*

## Funzioni - Features
